Are You Eligible for the Earned Income Tax Credit?

The Federal, State and New York City governments each offer EITC to qualified workers. Luckily, if you are eligible for the Federal EITC you are eligible for all three Earned Income Tax Credits. By applying for all three of these credits, you can receive up to \$5,800 back when you file your taxes! Your eligibility and amount of return depend on several factors such as your filing status, income level, and the number of qualifying children or dependents you claim. Both families and individuals are eligible to receive the EITC.

To be eligible to receive the EITC you must:

1. Have worked at some time in 2004,
2. File your taxes for income earned in 2004,
3. Have a Social Security Number or a taxpayer ID number.

Income requirements¹ :

- Families or individuals earning less than \$11,490 (\$12,490 for married filing jointly) with no children may receive up to \$527.
- Families earning less than \$30,338 (\$31,338 for married filing jointly) with one child may receive up to \$3,515.
- Families earning less than \$34,458 (\$35,458 for married filing jointly) with two or more children may receive up to \$5,800.
